WE ARE INTRODUCING

 Steady is well organized company with a high customer' reputation, our firm worked with the star companies in HVAC industry, airports, petroleum, hospitals, hotels, district cooling, and others

Our range contains the cooling tower solutions, Heat exchangers, Evaporative condensers, Dry coolers, wet coolers, beside the ventilation and industrial fans which standardized according the universal institutes and accumulated experiences

STEADY
VALUES & QUALITY

- Cooling tower complete sets (counter flow cross flow open / closed circuit)
- 2. Evaporative condensers
- 3. Dry and wet coolers
- 4. cooling towers fill, drift eliminators, inlet air louvers, fan impellers and nozzles supplying
- refilling, overhauling, restoration and renovation of counter flow and cross flow cooling towers
- coatings, repainting and insulation with specialized materials and sealants according standards
- 7. Fans for industrial and domestic ventilation applications
- 8. Heat exchangers (plate shell and tube finned tube tube inside tube)
- 9. inspection
- 10.Automation
- 11. Erection, designing & energy audit

WHAT WE OFFER

STEADY is the Egyptian pioneer company with a high customer reputation, working with the star companies in HVAC industry, airports, petroleum, petrochemicals, hospitals, hotels, district cooling, and others

our company built upon a rare experienced team with value-oriented targets to introduce the best products during our creeds of win-win approach success

We are working in the field of: cooling tower erection and maintenance (counter and cross flow types) including USA, EU and far east profiles

evaporative condensers and dry coolers ventilation, cooling towers fans and impellers

KEY BENEFITS

- 1. Easy Installation
- 2. Low Sound Profile (Quiet)
- 3. Power Saving technique and audit
- 4. Superior thermal performance
- 5. Spare Parts Availability
- 6. After Sales services
- 7. Long Service Life
- 8. Sophisticated solutions and measurements
- 9. Safety codes conformity
- 10.Resources saving considerations

COMPANY PROFILE

Our Vision

66 STEADY is planning to be the largest company

in its field of local business, over the next five years; by achieving: values-based model, a highly experienced and rare team, and continuous training process.

"

STEADY is an internationally operating engineering and contracting company that is highly experienced with thermal design, detail engineering, project and site management.

The company is a specialist provider of cooling tower services for all industries.

With a low overhead company structure, STEADY can offer and deliver fabrication, maintenance and construction services at a highly competitive price.

This combined with our proven safety record, high standard of workmanship and extensive employee experience means that STEADY consistently meets and exceeds our client's requirements.

Our Mission

STEADY makes its products and services to be:

Established according to the latest technical innovation in our business

And achieving mutual success with our customers

We are distinguished by the credibility, transparency and fair price policy

We are your competent and committed partner with more than rare experience in wet cooling.

Our mission is to be the values oriented company with the objective to utilize our expertise on cooling towers to the best of our customers' advantage, as the field leader.

We are committed to preserving nature and our environment; we use efficient mechanical equipment with low noise emissions, as well as resources-saving techniques.

SUCCESS TOOLS

- Rare team (honest energetic - trained - cooperated)
- High quality, tested products with the sufficient success and reliability
- Theoretical and sophisticated industrial techniques with accurate literature and measuring instruments and programs
- The fair and selective prices with the high value can be added to the market and society
- Spare parts availability and fast response to the operation sustainability needs
